Caption	ART IN STATE BUILDINGS - Increases the percentage of the total estimated costs of building projects designated for fine arts elements from 0.5% to 1.0%. Under current law 0.5% designated for arts projects is paid directly from the construction budget of a particular project and is often maintained by the respective State agency that is the principal user of the facility. Note: Fiscal impact is difficult to estimate because projects are multi-year and impact is on total estimated construction costs.
